ENGINEERING CONSULTING

# Foresight Eco Capabilities Statement

## Company Overview

Foresight Eco is a mission-driven environmental and civil consulting firm providing practical, forward-thinking solutions that restore land, protect public health, and support sustainable infrastructure. We specialize in environmental remediation, stormwater management, ecological restoration, and project management services for federal, state, and municipal clients.

---

## Core Competencies

- ❖ Environmental Site Assessment (Phase I)
  - ❖ Soil and Groundwater Remediation
  - ❖ Stormwater Compliance (SWPPP, BMP Design)
  - ❖ Ecological Restoration
  - ❖ Civil Engineering Support & Design Review
  - ❖ Project Management & Regulatory Compliance
  - ❖ Community Engagement & Stakeholder Coordination
- 

## Differentiators

- ❖ Led by a principal consultant with extensive federal and state project experience
  - ❖ Specialized expertise in CERCLA, RCRA, NEPA, Clean Water Act compliance
  - ❖ Commitment to integrity, technical precision, and environmental stewardship
  - ❖ Small team delivering personalized service and quick response times
  - ❖ Familiarity with agency requirements and project delivery standards
- 

## Key Personnel

Jesse Sims, Principal Consultant - Civil Engineer and Restoration Ecologist with extensive experience delivering environmental cleanup and civil infrastructure projects for NAVFAC, USACE, and municipal clients. Expertise in CERCLA/RCRA compliance, stormwater systems, and project management for multi-million-dollar remediation projects. Holds MS in Restoration Ecology and BS in Civil Engineering.

## Past Performance (Representative Projects)

### **NAVFAC Pacific - Remedial Action, Site 3, NAS Barbers Point, HI**

Served as Quality Control Officer/Assistant PM ensuring compliance with CERCLA and stormwater BMP standards. Oversaw grading, waste management, and erosion control for \$5M CPAF project.

### **USACE Omaha District - Rapid Disaster Infrastructure Levee Reconstruction, Sacramento, CA**

Managed quality control for time-sensitive levee repairs post-flooding. Led inspections, materials testing, and ensured constructability compliance for \$5M project.
